TECHNICAL TRAINING

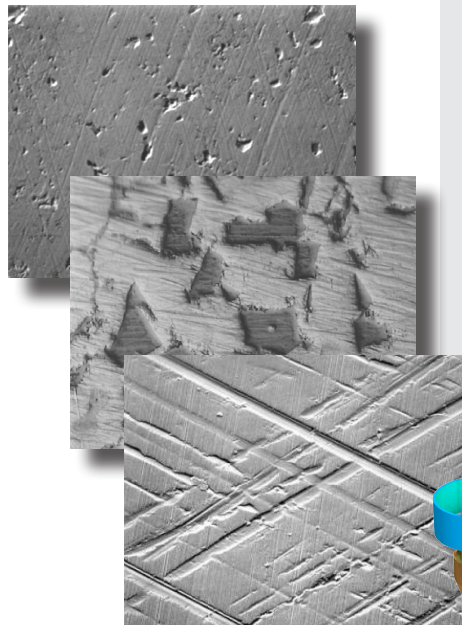

WEBINAR- CYLINDER SURFACES PAST, PRESENT AND FUTURE

OUR KNOW HOW - YOUR ADVANTAGE!

With our training, we want to support your work with the different cylinder surfaces in the engines of passenger cars.

CONTENT:

- overview of surfaces
- different coatings for sliding surfaces
- pro and cons
- repair solutions and possibilities

Target group:

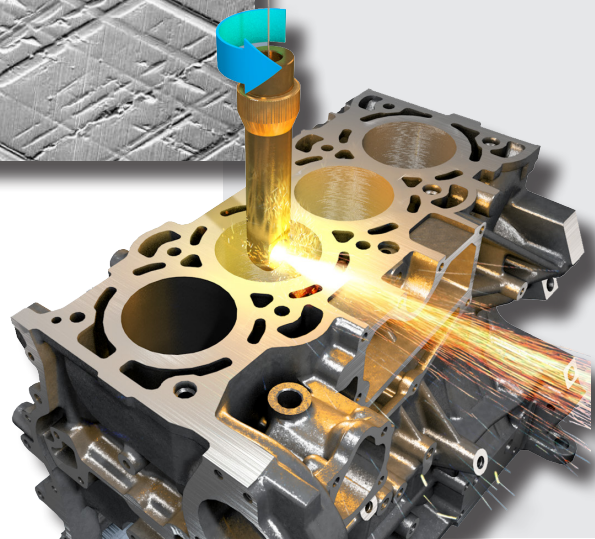

engine reconditioner;
service personnel and
sales employees with a
technical focus, who are keen
to expand their product
knowledge.

Date:

Friday 21th August
9:30 am

The participants ...

- ... will be able to detect the different surfaces.
- ... will gain a good knowledge of the different technologies.
- ... will be aware about problems of the repair solutions.
- ... will know the correct reconditioning methods.
